# Impermeabilizzanti idro-oleo repellente/ Water and oil repellents

<b>Prodotto/ Product</b>	<b>Applicazione/ Application</b>	<b>Carica Charge</b>
<b>Henktex C6</b>	<p>Resina Fluorocarbonica C-6, per finissaggi permanenti idro-oleo repellenti indicata per cotone, Poliestere, Poliammide e loro miste.</p> <p>Perfluoro acrylic copolymer. Permanent Water, oil and stain repellent finishing, recommended for cotton, synthetic fibers and their blend.</p>	<b>C</b>
<b>Henktex C8</b>	<p>Resina Fluorocarbonica C-8, per finissaggi idro-oleo repellenti, raccomandata per fibre cellulosiche e lana.</p> <p>Perfluoro acrylic copolymer, permanent water, oil and stain repellent finishing, recommended for cellulosic fibers and wool.</p>	<b>C</b>
<b>Henktex C0</b>	<p>Resina esente da Fluoro per finissaggi idrorepellenti indicata per Poliestere, Poliammide, Cotone e relative miste.</p> <p>Fluoro Free resin, for Water, repellent finishing, recommended for Polyester, Polyamide, Cotton and their blend.</p>	<b>C</b>
<b>Henktex LN</b>	<p>Agente reticolante e catalizzatore per dispersioni Poliuretatiche, Poliacriliche e Fluorocarboniche. Stabile a pH alcalino.</p> <p>Cross-linking and catalyst agent for Polyurethane, Polyacrylic and Fluorocarbon dispersion. Suitable at alkaline pH.</p>	<b>C</b>
<b>Hentex PU</b>	<p>Catalizzatore per dispersioni Poliuretatiche, Poliacriliche e Fluorocarboniche. Non è idoneo all'utilizzo a pH fortemente acidi o alcalini.</p> <p>Catalyst for Polyurethane, Polyacrylic and Fluorocarbon dispersions. It is not suitable to be used at a strongly acid or alkaline pH.</p>	<b>N.I</b>
<b>Henktex PU/BL</b>	<p>Agente reticolante e catalizzatore per dispersioni Poliuretatiche, Poliacriliche e Fluorocarboniche. Stabile a pH alcalino.</p> <p>Cross-linking and catalyst agent for Polyurethane, Polyacrylic and Fluorocarbon dispersion. Suitable at alkaline pH.</p>	<b>N.I.-A</b>
