## NATURE DYE RANGE

# AUXICOLOR

**Color changes everything.**

Auxicolor is committed to respecting the environment and presenting a new range of eco-friendly pigment dispersions.

This range of pigments comes from clays, natural oxides and natural minerals.

Compared to conventional dyes with pigments of synthetic origin, these are an affordable and cost-effective solution for garment dyeing, but fundamentally organic.

This range, as well as the auxiliary products used in the dyeing process, comply with the regulations:

ECO PASSPORT and ZDHC 2.0 Level 3.

Nature Dye pigments manage to optimize the dyeing process and are suitable for:

- Good reproducibility
- Low dyeing temperatures -50°C-
- Low energy consumption
- Easy wastewater treatment
- there is no presence of electrolytes
- A simple treatment of dye bath filtrate
- it is not necessary to use treatments waste bath chemicals

## GARMENT DYEING nature dye

- ☐ New pigment dyeing process; simple and economic.
- ☐ Process in one bath.
- ☐ Reproducible process.
- ☐ Low water consumption.
- ☐ High save energy.
- ☐ Short time process.
- ☐ Good washing and light fastness.
